

A Leading Manufacturer of Specialty Solvents in China.

Pentanes·Hexanes·Octanes·Buntanes·D Series Solvents

Junyuan Petroleum Group

Junyuan Petroleum Group is a leading manufacturer of pentanes, hexanes, octanes, butanes and D solvents with manufacturing facilities in Shandong and Xinjiang, China.

HISTORY

Junyuan Petroleum Group, founded in 2009 with the registered capital of 180 million RMB (roughly 27 million USD), is a general group gradually developed and improved, relying upon Dongying Junyuan Petroleum Technology Development Co., Ltd. Over the past eight years, Junyuan Petroleum Group has been continuously developed and expanded, and now incorporates five subsidiaries including Dongying Junyuan Petrochemical Technology Development Co., Ltd., Dongying Liangxin Petrochemical Technology Development Co., Ltd., Dongying Changyuan Petrochemical Technology Development Co., Ltd., Dongying Junyuan Logistics Co., Ltd, Sinkiang Liangxin Technology Development Co., Ltd and Orient Junyuan (Beijing) Technology & Trade Co., Ltd. They constitute a complete oil refining industry chain of Junyuan Petroleum Group.

2009

Founded in 2009 to solve a customer's speciality solvents needs

20+

More than 20 active products

Expansive global distributor networks

60+

Champions of more than 60 different technologies

GROWTH

New, innovative product introductions every year

Market expansions through research and development

Technology growth from our dedicated research team

Geographic growth to better serve customers

PEOPLE

Our customers can be confident that behind every sale is a team of dedicated people determined to make it a success.

Junyuan Petroleum Group believes good service starts with good people. Our success is rooted in our team approach to business. Everyone working together as a team is the key to making sure customers' needs are being met at every level of the organization.

Our employees are some of the most well-respected members of the industry, many with top certifications and decades of experience. Wherever you are, we have experienced and knowledgeable people there, ready to support you.

CUSTOMER SERVICE

Individual account management

Quick order entry process

Global coverage

TECHNICAL SERVICE

Superior hands-on field support

On-location service available from start to finish

Highly trained industry experts

LOCAL SALES SUPPORT

Fast and reliable system recommendations

Solving your problems is what we do

Call in and speak directly to knowledgeable support

LOCATIONS

Regardless of your location, we can deliver the products you need

Junyuan's world-class, global organization can supply products anywhere in the world to meet your requirements. With 2 manufacturing facilities in China, we can consistently produce and deliver high-quality products to our customers worldwide.

Our global network of industrial service centers and distribution points are strategically located around the world to provide the highest level of customer service and support for your project. Anywhere in the world, anytime you need us, we'll be there.

JUNYUAN LOCATIONS

Hundreds of warehouses
worldwide by our partners

Two research and
development facilities

More than 20 sales
representatives

Manufacturing facilities
located strategically in 2
provinces in China

ISO

ISO-certified facilities
in Shandong and Xinjiang, China

PRODUCTS

We develop products that solve specialty solvent needs and offer real benefits.

Product development at Junyuan is driven by a passion for performance and innovation. Our continued focus and understanding of our customers' needs drives product development.

All new products go through stringent internal and external testing. Rigorous product testing is meaningful, realistic, and based on decades of knowledge and experience. When a new product is released, we know it will perform.

Our comprehensive line of problem-solving technologies has earned the trust and confidence of customers around the globe.

2010

Junyuan begins to plan for development

Junyuan becomes an authorized market member of Sinopec

Production capacity and output value doubles over the previous year

2011

The production plant begins to take shape

Junyuan's production capacity reaches nearly 100,000 tons

Junyuan's 2nd plant in Xinjiang is launched

2012

In 2012, Junyuan's development momentum is overwhelming, with more than 100 employees

2013

Junyuan's business development takes off

2014

2014

Junyuan's business development is stable and mature, maintaining high-speed growth

2015

Junyuan becomes the only manufacturer that can produce n-Hexane with purity up to 99.99% in China

Introduction of 7x24 Rapid Customer Service for the growing maintenance business

2016

Growth in the pentane blends market explodes

Junyuan further develops its brand, which has a positive impact on n-Hexane and its upstream and downstream industries.

2017

Junyuan ranks No. 1 in specialty solvents industry competitive analysis in China market

2018

2018

Junyuan is awarded the honorary title of "Intellectual Property Demonstration Enterprise"

The project "Research and Industrialization of n-Hexane High-purity Refining Technology" is selected as the first prize of excellent achievement award of technological innovation in Shandong Province.

2019

Junyuan fulfills the order of 1,500 tons pentane blowing agent to Middle East market

10 Years of Success!

Junyuan successfully passes the energy measurement review of key energy consumption enterprises

Mr.Miao Guangfa, Chairman of Junyuan Petroleum Group, is awarded the honorary title of May 1st Labor Medal of Shandong

Junyuan is selected as one of the top 100 petroleum and chemical enterprises in Shandong Province in 2019

2020

Junyuan participates in the revision of the National Standard of Pentane Blowing Agent

The industrial standard of n-Pentane for industrial use jointly proposed by Sinopec Shanghai and Junyuan is listed in the national project plan in 2020.

The provincial Yellow River Delta Agricultural High-tech Zone expert review on Junyuan's technical transformation and project safety

Another invention patent of Junyuan is authorized by the State Intellectual Property Office. The patent name is "a device and method for hydrotreating distillation separation and joint production of customized naphtha raw materials", patent No.: ZL 201711267832x.

After 2 years of construction, Junyuan completes the Key Laboratory of Hydrocarbon Solvents in Dongying

2020:Junyuan completes the R & D and commissioning of n-Heptane,99% and n-Octane,99% with the fastest speed,and successfully launches the two new products to the market

Isohexane for Industrial Use (Hg / T5612-2019) and Isopentane for Industrial Use (Hg / T5613-2019) drafted by Junyuan in 2018 is officially implemented on July 1, 2020. Announcement No.61 of 2019 issued by the Ministry of Industry and Information Technology of the People's Republic of China

2020:Junyuan wins the honorary title of "Niche Champion Enterprise of the Manufacturing Industry"

No.1 CHINA

Junyuan becomes the No.1 manufacturer of reagent grade n-Hexane,99% in China

Opening an office in Beijing is an important step in Junyuan's international expansion.

Junyuan Service Center expansion

People's Daily Reports:Junyuan Petroleum Group maintains the top position as the largest pentane blends manufacturer in China.

Large expansion into 7 series of products: propane, pentane, hexane, solvent oil, aromatics, D Solvents and hydrogenated naphtha

Against the trend, Junyuan once again increases production investment, improve product quality in an all-round way

Junyuan decides to produce industrial refrigerant according to the requirements of Univision standards in the US and the purity of the product reaches 99.9%

Junyuan's hexanes and pentanes, stand out in the fierce competition market

Explosive growth in the pentane and hexane market

Junyuan's own internal journal Junyuan People is launched

Junyuan's staff expands to hundreds

With an annual output of 200,000 tons, Junyuan has taken off and expanded its wings for rapid business development.

Junyuan Petroleum Group

For more than 10 years, the Junyuan Petroleum Group has focused on being the leading manufacturer of pentanes, hexanes, benzenes and D solvents. From one office and a staff of ten to more than 500 of the industry's best and brightest, we have grown to be the largest specialty solvents provider serving for power generation, chemical feedstock applications, and domestic use.

Junyuan Petroleum Group is the largest specialty solvent manufacturer in China and also the largest environmental friendly hydrocarbon refrigerant and pentane blowing agent manufacturer in China, and the first enterprise in China to obtain the qualification of vegetable oil extraction solvent for food additives.

Junyuan Petroleum Group was founded in 2009 with a registered capital of 160 million US dollars (equivalent to 23.56 million US dollars). It is a comprehensive group relying on Dongying Junyuan Petroleum Technology Development Co., Ltd. and gradually developed and expanded.

Our seven series of products include propane series, pentane series, hexane series, solvent oil series, aromatics series, D series solvent oil and hydrogenated naphtha series.

Products include propane, isobutane, n-butane, high clean liquefied gas, Isopentane, n-Pentane, cyclopentane, pentane blowing agent;

Isohexane, 99%
n-Hexane, 99%
n-Hexane, 95%
n-Hexane, 90%

Pentane Blends

Isohexane

Isohexane, a clear, colourless liquid commonly used as a constituent of gasoline and glues used for shoes, leather products and roofing. Additionally, it is used in solvents to extract oils for cooking and as a cleansing agent for shoe, furniture and textile manufacturing.

Junyuan Petroleum Group is an established manufacturer of Isohexane in China.

Common Name: Isohexane
CAS Number: 107-83-5
Density: 0.7 +/- 0.1 g/cm³
Molecular Formula: C₆H₁₄
Flash Point: -23.3 +/- 0.0C
Symbol: GHS02 GHS07 GHS08 GHS09
GHS02, GHS07, GHS08, GHS09
Molecular Weight: 86.175
Boiling Point: 59.6 +/-3.0 C at 760 mmHg
Melting Point: -154 C

In laboratories, Isohexane is used to extract oil and grease from water and soil before determination by gravimetric analysis or gas chromatography.

We have a modern manufacturing facility with a well-equipped laboratory to maintain the highest global quality standards for Isohexane production.

Junyuan Isohexane can also help control drying properties of adhesive formulations.
